## Re: Amended Quarterly Report – 31 March 2010

A typographical error was made in the “Highlights” section on page one of the Quarterly Activities Report - 31 March 2010 which was released 30 April 2010. The error appeared in the following bulleted line:

- 89 metres at **710 ppm** cU<sub>3</sub>O<sub>8</sub> from 128 metres, including:

The correct value is 400 ppm and the bullet should have read as follows:

- 89 metres at **400 ppm** cU<sub>3</sub>O<sub>8</sub> from 128 metres, including:

The value was reported correctly in the body of the report on page 10.

The amended copy of the Quarterly Activities Report – 31 March 2010 has been rereleased in its entirety.

Yours sincerely

**Mark Pitts**  
Company Secretary
