2020 SUSTAINABILITY REPORT

Deep Yellow Limited (**Deep Yellow** or **Company**) is pleased to release its inaugural 2020 Sustainability Report.

The Company is focused on creating long-term value for our shareholders, stakeholders and the communities in which we operate. A key component to successfully achieving this goal is also through the efficient, effective and ongoing implementation of environmental, social and governance (**ESG**) pillars.

Although a company in the pre-development stage, Deep Yellow has decided to produce its first Sustainability Report, commensurate with its size. This provides a foundation to allow the key ESG pillars to grow and evolve with the Company over the coming years as it advances to mining.

Deep Yellow Managing Director Mr John Borshoff commented: *“As an aspiring mining company, we believe we can and should progressively integrate our ESG practice from early stages of exploration and development, positively influencing our culture and communities, with attention to sustainability and transparency to support our growth in a holistic manner.”*

Yours faithfully

JOHN BORSHOFF
Managing Director/CEO
Deep Yellow Limited
