ASX ANNOUNCEMENT

1 FOR 8 NON RENOUNCEABLE ENTITLEMENT ISSUE

Deep Yellow Limited (DYL or the Company) is pleased to announce that it will be offering eligible shareholders the opportunity to acquire additional fully paid shares in the capital of the Company through a 1:8 non-renounceable entitlement issue at 1.65 cents per share, to raise up to approximately \$3.3 million (the Offer).

The Offer price represents a discount of approximately 29.8% to the volume weighted average price (VWAP) of DYL's shares for the thirty trading days before the announcement (30 day VWAP is 2.35 cents).

The Company has received the support of major shareholders who have indicated their willingness to participate in the Offer.

Background information and information about the use of proceeds from the Offer

The ongoing difficult equity market conditions have been compounded in the uranium sector by the hesitant restart of Japan's nuclear fleet. This meant that the end of the HEU agreement passed almost without notice in the last quarter of 2013 despite the fact that there are more reactors operating, under construction or in the active planning stage than prior to the Fukushima nuclear accident.

There has been widespread curtailment of production, restricted project development and limited exploration activity in the past three years and in particular over the last year as the spot price has declined.

There remains a reasonable chance that some reactors will be re-started in Japan before the end of the year, an event likely to change both sentiment and the underlying supply and demand balance.

In spite of the risk averse nature of global equity capital markets, DYL believes that the recent strong signals of uranium producer discipline and the current level of unsustainable prices should provide a correction in the medium term. DYL, like most uranium players, remains highly leveraged to any positive movement in the spot price.

Over the past three years the Company's strategy has been one of cautiously progressing its attractive Namibian projects whilst expeditiously using its cash resources in areas that had the greatest potential for longer term benefit. We have made tough decisions to protect our cash balance, such as substantially reducing Australian overhead costs, cutting director fees and executive salaries, freezing all other salaries and disposing of non-core assets. Unfortunately we have also had to reduce the size of our team in Namibia and yet we have still managed to make progress on our projects there, such as the:

- Successful resource update and DRA processing study on the Tubas Sand Project;
- Completion of the groundbreaking targeting study which demonstrated that DYL holds amongst the most prospective uranium exploration ground in Namibia; and
- Conclusion of a sighter column test on a composite sample from the MS7 and Ongolo deposits opening the path to a heap leach, as opposed to a tank leach, operation for the Omahola Project.

4 June 2014
ASX ANNOUNCEMENT

Deep Yellow aims to ensure that it can maintain its momentum by utilising the funds raised from the Offer to primarily progress the Company's Tubas Sands Project in Namibia, undertake additional low level exploration work and for general working capital purposes. More specifically, in regard to the Tubas Sand Project it aims to:

- Complete an expansion and infill drilling program and associated resource update on the Tubas Sand Deposit;
- Conduct metallurgical test work and complete a pre-feasibility study for the Project by the end of the 2014; and
- Commence a definitive feasibility study for the Project assuming a successful outcome to the pre-feasibility study and offtake negotiations.

In addition to the above a resource update is planned for the Omahola Project to reflect its changed status to that of an acid heap leach project rather than a tank leach, as well as very limited, highly selective exploration work.

As a result of these efforts it is envisaged that the Company will be well positioned in 12 to 18 months' time – the point at which most commentators suggest the market recovery could well be underway.

Deep Yellow Limited

4 June 2014

Notification under section 708AA(2)(f) of the Corporations Act 2001 (Cth)

Deep Yellow Limited (DYL) is making a pro-rata non-renounceable entitlement issue (the Entitlement Issue) to eligible security holders with registered addresses in Australia, New Zealand, Hong Kong, Namibia, Ireland and the United Kingdom.

The Entitlement Issue is being made on the basis of 1 New Share for every 8 shares held at the Record Date (12 June 2014).

DYL confirms that pursuant to section 708AA(2)(f) of the Corporations Act 2001 (Cth) (Corporations Act):

1. DYL will offer approximately 202,130,171 fully paid ordinary shares for issue without disclosure to investors under Part 6D.2 of the Corporations Act pursuant to a non-renounceable entitlement offer announced to ASX on 4 June 2014.
2. As at the date of this notice, DYL has complied with:
 - (a) the provisions of Chapter 2M of the Corporations Act as they apply to DYL; and
 - (b) section 674 of the Corporations Act.
3. As at the date of this notice, there is no information:
 - (a) that has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
 - (b) that investors and their professional advisers would reasonably require for the purpose of making an informed assessment of:
 - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; or
 - (ii) the rights and liabilities attaching to the shares for issue.

Control

The Entitlement Issue being made by DYL will mean up to 202,130,171 New Shares (subject to rounding) are issued. Upon completion of the Entitlement Issue the issued capital of DYL will be 1,819,171,538 ordinary shares (assuming full acceptances).

Control will be affected by the level of applications under the Entitlement Issue.

Based on current disclosures made by substantial shareholders in DYL the maximum percentage shareholding any existing shareholder could attain through taking up their entitlement would be 19.6%.

The final percentage interests held by substantial shareholders of Deep Yellow is entirely dependent on the extent to which other security holders take up their entitlements.

After consideration of the matters summarised above DYL expects that the potential effect of the issue of New Shares under the Entitlement Issue on the control of DYL will be minimal and that there is not likely to be any material consequence of that effect.
